SRLINES wCRM – WhatsApp Cloud API CRM Solution

Prepared By

SRLINES wCRM Solutions

Transform Your Customer Communication with WhatsApp Cloud API

Empower your business with Meta's official WhatsApp Cloud API integration and manage customer conversations professionally through a centralized CRM platform.

- ✓ Official WhatsApp Cloud API
 - ✓ Multi-Agent Support
 - ✓ CRM Integration
 - ✓ Customer Chat History
 - ✓ Team Collaboration
 - ✓ Broadcast & Template Messaging
 - ✓ Real-Time Customer Engagement
-

Requirements

To onboard your business successfully, the following requirements must be available:

1

Facebook Account

A valid Facebook account with administrator access.

2

Business Website or Google Blog

A business website, landing page, or Google Blogger page representing your business.

WhatsApp Number

Either of the following:

- Existing WhatsApp Business App account (minimum age: **3 months**), OR
- A fresh mobile number that has never been registered on WhatsApp.

Onboarding Process

 Estimated onboarding time: **25–30 minutes**

Blue Badge Verification & Number Masking Requirements

For businesses interested in advanced verification features:

-  Active Business Website
-  Valid Business NTN Registration
-  WhatsApp Business Account operating continuously for at least **7 days**
-  No active flags, restrictions, or policy violations on the account

Note: Blue Badge approval is solely granted by Meta after reviewing business eligibility. Approval is not guaranteed and remains subject to Meta's verification policies.

Meta conversation fees are billed separately and may change according to Meta's official pricing updates.

Important WhatsApp & Meta Policy Disclaimer

WhatsApp Cloud API operates under the policies and guidelines of Meta Platforms.

Please note:

- ♦ WhatsApp account restrictions, quality rating reductions, messaging limitations, temporary bans, or permanent blocking are controlled entirely by Meta and WhatsApp.
 - ♦ Any intentional or unintentional violation of WhatsApp Business Messaging Policies, Commerce Policies, Anti-Spam Policies, or Community Standards may negatively affect your WhatsApp account.
 - ♦ Examples include:
 - Sending unsolicited messages
 - Excessive broadcasting
 - High block/report rates
 - Misleading or prohibited content
 - Policy violations by agents or administrators
 - ♦ SRLINES wCRM provides technical integration and support services only and cannot override, remove, or influence Meta's enforcement decisions.
 - ♦ The client is fully responsible for ensuring compliance with Meta and WhatsApp policies while using the platform.
